## **DETAILED ACTION**

### ***Specification***

1. The disclosure is objected to because of the following informalities:

On page 8, lines 4 and 7, it is thought that "a" should be changed to —an— for greater clarity.

On page 10, line 1, it is thought that —the— should be added after "from".

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3, line 4, "handle" has no clear antecedent basis in that it is unclear which handle is being referred to

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3612

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-4, as understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Mori et al.

Mori et al. disclose the claimed invention including locking members 10, engaging members 30, 40, operating knob 15b, handles 8, 8' located towards the sides of the front window and handle 8 being in the vicinity of one of the locking members, and elastic members (unnumbered) in Figure 15 mounted to element 2 and engaging window glass 6a.

#### ***Allowable Subject Matter***

5. Claims 5-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited reference generally relates to the claimed invention..
